PROFESSIONAL SUMMARY

AI/ML-focused MCA student at IET, Lucknow, with hands-on experience designing and shipping agentic AI systems and LLM-powered workflows end-to-end. Comfortable integrating LLM APIs (Groq, Gemini, OpenAI) and adapting quickly across providers, orchestrating multi-agent pipelines with LangGraph/LangChain, and working with SQL and structured data. Experience collaborating directly with non-technical stakeholders to translate real-world needs into working AI tools.

TECHNICAL SKILLS

Languages: Python, SQL, Java

Agentic AI / LLM: LLM API Integration (Groq, Gemini, OpenAI), Agentic AI, LangGraph, LangChain, Prompt Engineering, RAG, Semantic Search

Data: SQL, PostgreSQL, Structured Data Processing, Pandas, FAISS, pgvector

ML Frameworks: PyTorch, Hugging Face Transformers, XGBoost, Random Forest, Scikit-learn

Backend & Tools: FastAPI, REST APIs, Docker, Git, Postman, Streamlit

PROJECTS

SheSync AI – AI-Powered Women’s Reproductive Health Platform *Python, FastAPI, Next.js, PostgreSQL, Scikit-learn, LangChain, FAISS, Docker*

- Developed a full-stack AI-powered healthcare platform enabling personalized monitoring of PCOS, PCOD, Endometriosis, menstrual disorders, pregnancy wellness, and reproductive health using FastAPI, Next.js, and PostgreSQL.
- Built an Explainable AI-based PCOS risk prediction system integrated with personalized wellness recommendations, AI-powered health consultation, community health insights, and downloadable PDF medical reports.
- Implemented a multi-domain RAG pipeline using LangChain, FAISS, and Hugging Face BGE embeddings over curated medical and reproductive health datasets, integrated with Groq LLM for AI-driven consultations and downloadable PDF reports.

RecruitGPT – Autonomous AI Hiring Operating System *LangGraph, LangChain, pgvector, Gemini/OpenAI, FastAPI, PostgreSQL*

- Building an agentic AI-powered recruitment platform that automates the end-to-end hiring workflow, including resume parsing, AI-driven candidate matching, interview generation, coding assessment, and explainable hiring recommendations.
- Integrated LLM APIs (Gemini/OpenAI) with backend data sources (PostgreSQL + pgvector) to power semantic matching, iterating on agent behavior based on evaluation feedback.

LearnLens AI – Intelligent YouTube Learning Assistant *LangChain, FAISS, BM25, Sentence Transformers, Cross-Encoder, Groq (Llama 3.3)*

- Engineered a Hybrid RAG pipeline combining BM25 keyword search, FAISS vector search, and cross-encoder reranking to deliver highly relevant, timestamp-cited answers over long-form video content.
- Integrated Groq Llama 3.3 for low-latency streaming inference (SSE), powering AI-generated summaries, chapter extraction, quizzes, concept maps, and playlist-wide semantic search.

Bidirectional Indian Sign Language (ISL) Translator *Python, PyTorch, Transformer, MediaPipe, OpenCV*

- Developed a Transformer-based deep learning model classifying 114 Indian Sign Language gestures in real time using MediaPipe hand-landmark extraction.
- Built an end-to-end deep learning pipeline covering landmark processing, sequence classification, model evaluation, and confidence-aware inference.

POSITIONS OF RESPONSIBILITY

Training and Placement Coordinator – IET, Lucknow *Jan 2026 – Present*

- Coordinate placement activities across recruiters, faculty, and students — translating needs between non-technical stakeholders and technical processes to ensure smooth recruitment operations.
- Serve as liaison between the Training and Placement Cell, recruiters, and student batches; organize placement drives, interview schedules, and professional development sessions.

HACKATHONS & ACHIEVEMENTS

- Built an Agentic AI-Based Multimodal Insurance Claim Validator – HackerRank Orchestrate Hackathon
- Built an AI Job Matchmaker & Talent Intelligence Platform(Team-Work) – RedRob Hackathon
- Participated in Goldman Sachs India Hackathon 2026 (CS Edition)
- Submitted 3 proposals for Wikimedia Foundation in Google Summer of Code (GSoC) 2026
- 1588 rating on CodeChef; solved 200+ DSA problems across CodeChef, LeetCode, GeeksforGeeks

EDUCATION

Institute of Engineering and Technology (IET), Lucknow *2025 – Present*
Master of Computer Applications (MCA) *CGPA: 8.57*

Gandhi Faiz-e-aam PG college, Shahjahanpur *2020 – 2023*
Bachelor of Science (Mathematics) *CGPA: 7.64*
